

# SCHULZE BRAKEL

## Exclusive foam-solutions

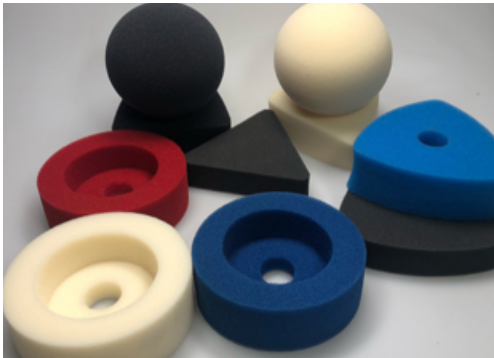

### A variety of technologies under one roof.

We offer individually designed, exclusive solutions made from foam that meet the needs of our customers in a wide range of wide range of sectors - from the automotive to the aviation industry. The diversity of our customized solutions is a source of satisfaction as they benefit from a comprehensive choice of manufacturing technologies.

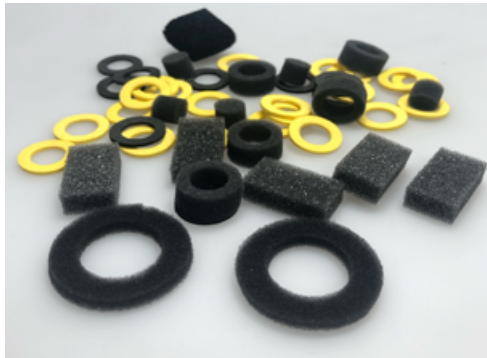

We are ISO 9001 certified. Quality is the foundation of our business and is at the heart of everything we do.

Since 1949, we have focused on providing our customers with the best capabilities combined with a first-class customer service and short delivery times.

#### Milling

We specialize in milling of foam according to your exact requirements individually. Our milling technology guarantees precise processing even complex geometries and a peerless surface.

#### Punching

Within one week we will have your desired tool ready and can immediately start the production of the first sample pieces. This method is characterized particularly by its efficiency in the production of standardized shapes in mass production.

#### Cuts / slits

Regardless of whether it is about straight cuts or the precise cutting out of a heart pattern, we cut your foam quickly and effortlessly to the desired dimensions.

#### Coating / coloring

An additional coating gives your foam the required properties or the desired properties or the desired look appearance. Our proprietary process and the flocking technology for a smooth and even surface.

#### Labeling

Make your company logo or your name unforgettable! We will create a mock-up to visualize your ideas. Our precise lettering impress and sets accents.

#### Packaging

From the selection of materials to the assembly of various components, we are fully committed to finish your desired product. Subsequently ensure the quality and pack the end product end product for you.
